Geo Tools for Modernization and Youth Employment

# MyGeo Newsletter

*The "MY GEO" newsletter is a monthly round-up of all the latest news, events, resources, and opportunities arising from the "MY GEO" project.*

The project MY GEO is an initiative funded by the European Commission through its Erasmus+ Programme, under the "Key Action 2: Strategic partnerships in the field of Higher Education".

The project aims at fostering the employability of students in higher education by promoting the acquisition of key skills related to the use of Geographic Information Systems (GIS) tools.

MY GEO is promoted by a consortium of nine partner organizations and two associated partners from Italy, Spain and Belgium.

**My GEOCHICAS:  
Mapping the streets of women in Zaragoza**  
On February 13, the My GEO project carried out an interesting initiative in Zaragoza. Check it out!

## Focus groups of teachers and students in Zaragoza

New focus groups of students and teachers implemented at the University of Zaragoza: read their outcomes.

## Using GIS technologies for the development of Smart Cities

A concrete example on the use of GIS technologies for the development of the "Smart City" concept

## Focus group of students in Padua

Three focus groups were carried out, involving a total of 36 students from the University of Padua. Check it out!

Co-funded by the  
Erasmus+ Programme  
of the European Union
