Geo Tools for Modernization and Youth Employment

MyGeo Newsletter

The "MY GEO" newsletter is a monthly round-up of all the latest news, events, resources, and opportunities arising from the "MY GEO" project.

The project MY GEO is an initiative funded by the European Commission through its Erasmus+ Programme, under the "Key Action 2: Strategic partnerships in the field of Higher Education".

The project aims at fostering the employability of students in higher education by promoting the acquisition of key skills related to the use of Geographic Information Systems (GIS) tools.

MY GEO is promoted by a consortium of nine partner organizations and two associated partners from Italy, Spain and Belgium.

The GIS and BIM alliance

Integration between GIS and BIM will transform infrastructure design and construction for smarter cities

Mapping the coronavirus outbreak with a GIS dashboard

An interactive map is providing near real-time tracking to show all cases of coronavirus. Let's see how it works!

GIS technology for "The future we want"!

The importance of GIS technologies in achieving the 17 Sustainable Development Goals of Agenda 2030

GIS technology and the impact on education

The impact of GIS technology on education. An example of teaching tool: EduGIS!

Co-funded by the
Erasmus+ Programme
of the European Union
