Geo Tools for Modernization and Youth Employment

MyGeo Newsletter

The "MY GEO" newsletter is a monthly round-up of all the latest news, events, resources, and opportunities arising from the "MY GEO" project.

The project MY GEO is an initiative funded by the European Commission through its Erasmus+ Programme, under the "Key Action 2: Strategic partnerships in the field of Higher Education".

The project aims at fostering the employability of students in higher education by promoting the acquisition of key skills related to the use of Geographic Information Systems (GIS) tools.

MY GEO is promoted by a consortium of nine partner organizations and two associated partners from Italy, Spain and Belgium.

FAO and GIS: sustainable agriculture and food security

New geospatial technologies for worldwide assessment of environmental conditions and the monitoring of their dynamics

A collaborative approach to working with Homelessness

Solve homelessness and homeless camps problems with the GIS technology

Northern Kentucky tackles the Opioid Epidemic

The story map provides Northern Kentucky with information to combat opioid addiction

Use GIS to help children understand COVID-19

Explain Coronavirus to children. Mapping the epidemic and analyzing epidemiological factors promotes understanding

Co-funded by the
Erasmus+ Programme
of the European Union
